Web Page Listing and their Purpose

Index - provides information about the creator of the website as well as an overview of what the website will be about.

Professional - show the creator's resume, vision and mission statements as well as information about the creator's future career.

Personality - provides information about the impact of the creator's personality on their academic life as well as their hero and a personality test.

Personal Development - a summary of chapters 4-7 of the "Twelve Pillars" and the creator's application of what was learnt to their life.

Storyboard - layout design of the webpages, list of webpages along with their purpose, their of the site, a list of features intended to be used in the website and a free hosting link.

Reference - the bibliographic sources of information used for assistance in the creation of the website.

Theme of Website:

The tone and feel of the website is of a welcoming atmosphere in addition to creativity and class. The four colours which I used to bring about my theme are:

- Purple which signifies luxury and creativity.
- Green which signifies growth.
- Red which signifies passion.
- Blue which signifies calmness.

My target audience is any individual that is interested in knowing about me, whether its in regards to my career or personality in general amongst others.

Features intended to be use on Website:

- Video
- Images and Interactive Images
- Downloadable Files
- Internal and External Hyperlinks
- Navigation Menu
- Back to Top Button
- Iframes
